

OCALA OCCURRENCES

K. of P. meet tonight.

Odd Fellows meet tomorrow night.

Try Bouquet Dozira perfume, \$2 per ounce, at Gerig's.

Fresh fall garden seed now in. The Ocala Seed Store.

"The John Dozier Co." will undersell everybody for the next 15 days for cash. Corn especially.

Mr. E. K. Nelson and son Edwin, of Tampa, are guests at the Harrington.

Take Rexall liver salts for that tired, lazy feeling. Gerig's.

A new shipment of Crane's stationery just in—all styles. The Court Pharmacy.

We have a new perfume, Bouquet Dozira, a fine lasting extract, \$2 per ounce. Gerig's.

Garden and flower seed for fall planting. Biting Co., 410 N. Magnolia St.

Mr. S. M. Lummus, the Star regrets to say, has been on the sick list for some days, and it will probably be several days more before he can leave his room.

Mr. Ed Carmichael has had the jitney (formerly described as the Seminole motor bus), overhauled, fitted with a 45-hp. engine and bigger wheels with the strongest tires and put again in commission between Ocala and Silver Springs. That skilled driver, Francis Webber, is in charge and has no trouble in bringing passengers in and out at a lively clip. The people missed the jitney the short time it was off, and were glad to see it on again.

Horse, cow and poultry feed, corn, oats, hay and sweet feed. Ocala Seed Store.

Mr. W. D. Carn and family made a visit to Lake County yesterday and enjoyed a pleasant day's outing. They covered 98 miles in their new Maxwell car, several miles of which had to be made in second speed over some of the new road grades, on even four gallons of gasoline, with a loaded car.

Judge Smith yesterday joined in wedlock Mr. Warnock McNabb and Miss Mabel Tucker, a young couple from Inverness.

Judge Smith this afternoon issued a marriage license to Mr. Gilbert M. Ashley of Tampa, and Miss Minnie May Ramey, of Oxford.

Dr. D. M. Boney requests the Star to inform his patrons that he will be in his office all this week, and to ask all who have work for him to call and see about it at once.

Mr. Ed Carmichael, during the absence of Mrs. Carmichael, is camping at the springs. He has an elegant little sleeping tent, simply but neatly and comfortably fitted up, with a well arranged cook tent and another sleeping tent for his servant. He is very nicely situated in a few yards of the springs, and finds both days and nights much cooler than in town.

The Evening Star may always be found on sale at Gerig's News Store.

P. H. Perkins of Ocala, is stopping at the Elks' Home, while in the city for a few days and is being welcomed by his brother Elks.—Tampa Tribune.

R. S. Rogers of Ocala is stopping at the Hillsboro, while in the city for a few days on business and pleasure.—Tampa Tribune.

Please don't forget that we carry the famous NORRIS candies, the best made. Fresh each week. The Court Pharmacy.

Fire of unknown origin destroyed a small house on Tucker Hill shortly before noon yesterday. The place was destroyed before the firemen reached it. The house was owned by Nora Summers, a negress, and was occupied by Mrs. Quick, a white woman. The furniture was saved.

If Mr. George Pasteur and a friend will call at the store of J. R. White and ask for bottled coca-cola, at the same time showing this advertisement, their efforts will be rewarded. The Ocala Coca-Cola Bottling Works.

W. K. LANE, M. D., Physician and Surgeon, specialist Eye, Ear, Nose and Throat. Law Library Building, Ocala, Florida.

KARMETT ETTY

Karmett ETTY, the little two-year-old son of Mr. and Mrs. J. T. ETTY, died shortly before noon today at the home of his parents in North Ocala, after a short illness. The funeral will be held tomorrow morning at Oak.

JUST THE THING FOR DIARRHOEA

"About two years ago I had a severe attack of diarrhoea which lasted over a week," writes W. C. Jones, Burford, N. E. "I became so weak that I could not stand upright. A druggist recommended Chamberlain's Colic, Cholera and Diarrhoea Remedy. The first dose relieved me and within two days I was as well as ever." Many druggists recommend this remedy because they know that it is reliable. Obtainable everywhere.—Adv.

HINTS FOR DIAMOND BUYERS

Some Things to Remember About the Most Popular of All the World's Precious Stones.

"A diamond of the first water should be entirely colorless and transparent, without any inclusion or flaw," says the Scientific American. "It is of the second water if it is colorless, with but unimportant faults, or if it is without faults but with some traces of color; and third water if it is colorless, but with larger faults, or if it is distinctly colored. The correct valuation is therefore very difficult and often subject to the jeweler's judgment. For this reason Professor Rosiwal gives to the layman the following hints: Stones of the first water are carried only by the highest class jewelers. The requisite is perfect lack of color, or—what is more highly prized—a tinge of blue. In general, beautifully colored diamonds command fabulous prices and are to be found only in the treasure vaults of princes.

"Stones of the second water are numerous. They are supposed to be microscopically pure, but almost always show some inclusions.

"There are oftentimes traces of yellow color in this grade, and because this can be seen best in sunlight one should never buy diamonds at night, for the prevailing lights cause stones that are even noticeably yellowish to appear clear. Most of the stones of the ordinary market are of the third quality, and the dealers try to cover up their faults by combining them into groups for border stones or for the popular pendants, diamond hearts, marquise rings, etc. While they may be colorless, they are often so full of flaws that they would be ranked as 'poor' or diamonds good only for mechanical purposes, if they had not been such a demand for gems as to increase the price."

HIS BACKBONE IS A SPRING

The Snapping Bug Has a Spinal Column Like a Knife—Wise Provision of Nature.

The snapping bug has a spring in his back like a knife. When not in use as a spring, it serves him as a backbone, so you see he is a believer in scientific efficiency and makes one part of his machinery do the work of two. His spring backbone, or backbone spring, if you prefer, gives him power to jump, which in turn gives him his name.

Nature probably gave him the spring to help him get on his feet when he's on his back. You've noticed how helpless some insects are when you lay them on their backs. Not this one, however.

He slips his backbone out of its groove and then slips it back again, suddenly. The spring pops him up in the air, he turns a somersault and drops right side up.

Spring backbones are common in several other beetles. The beetle of the pestiferous wire worm, which destroys the farmer's crops, has a spring in his back. Other members of the family make their homes in trees or decayed wood.
